BULLS AND BEARS.

THE LATEST FROM THE SCENE OF THE LATE PANIC.

The Stock Market of New York Gradually Recovering its Former Tone.

Two More Firms Forced to the Wall as a Result of the Present Tightness in the Money Market.

A Report That the Gould Crowd Have Again Obtained Control of the Union Pacific Railroad-Scenes and Incidents of the Day in the Street.

NEW YORE, Nov. 12 The stock market today showed a materially better feeling both in the street and on the outside, and there was a most gratifying confidence disglayed, that not only was the worst now over, but that the improvement would be quick and sharp. The action of the clearing house committee, in coming to the relief of the banks in difficulty, was the means of restoring the confidence of many, while the improvement in the situation abroad was also a powerful factor to that end. Not only were the active stocks much higher all day long, but the inactive specialties, which yesterday could not find buyers at any price, were taken at constantly advancing figures, and the heavy slump in these shares was in a great measure made up. The liquidation in the Tilthere was a most gratifying confidence disabroad was also a powerful factor to that end. Not only were the active stocks much higher all day long, but the inactive specialties, which yesterday could not find buyers at any price, were taken at constantly advancing figures, and the heavy slump in these shares was in a great measure made up. The liquidation in the Tillards is now believed to have murked the culmination of the efforts to force a complete liquidation in the street, as those plete liquidation in the street, as those stocks had resisted the force applied for a much longer time than any other group of

stecks on the list.

The impression is now that the whole situation has been changed for the better, and that the improvement in the condition of affairs will be followed by higher prices all along the line. There is to be expected considerable selling of Northern Pacific securities and some others to liquidate loans, as was witnessed today; but the market now shows no pressure of other stocks, and the offerings of the past few days have undoubtedly been taken by strong parties.

The foreigners were heavy buyers all day long, and the transactions for foreign accounts were so large that the suspicion that the late sales for London were for the short account was openly expressed. The loaning rates for stocks have been very high, and the inquiry has been very urgent, which would go to give color to

Money was still tight at the exchange, and a premium of % was exacted for use over the day, while it was believed that the banks were loaning to their customers the banks were loaning to their customers on satisfactory collaterals at rates even lower than the legal figure. The buying was throughout most confident in character and reflected an easier feeling both in money and as to the general situation. The report that Mr. Gould had acquired control of the Union Pacific again was used for all it was worth. The stock showed no response to the story, and today was only fairly active, and moved over a comparatively narrow range. The market became much more settled in the afternoon and comparative dullness was seen at times in the list. They were not of long duration, however, and the buying movement took on increased force toward the 2nd of the session, and the close was active and very strong at about the highest prices of the day.

FAILURES. The North Hiver bank, at the corner of Dey and Greenwich streets, closed is doors this afternoon at 2:30 o'clook, the state this afternoon at 2300 o'clock, the state bank examiner taking charge of its affairs. The bank is a member of the clearing house. It operates under a state charter, granted in 1842. It is one of the banks which had to be helped out by the clear-ing house yesterday. The bank applied again today to the clearing house for a loan, and a committee was on the way to examine into the condition of the institu-

The bank officials expected to open up business tomorrow morning at 10 Last week the clearing house cir cular showed the North River bank as hav-ing a capital of \$240,000, a surplus of \$118,-200, loans \$2,000,000, deposits \$1,975,000, and cash on hand \$270,000. The cause of the esent difficulty is simply tight money, account of the mention of the North ver bank as one of the defaulters at the learing house yesterday, depositors startsdy money was exhausted, and it had

C. Walcott & Co. announced their suspension on the stock exchange.

New York, Nov. 12—George W. Quintard, the assignee of Charles M. Whitney & Co., who failed on Tuesday, said yesterday that the firm owed about \$5,000,000, which was covered by collateral a. 20 per cent margin at the time of making the loans. The firm had on hand, be said, about \$100,000 in securities, and about twice that sum was due in cash, which, it twice that sum was one in cash, which, it vas thought, would be paid within the ext few days, and would go toward mak-ng up to creditors any deficiency on secur-

The assigner of Decker, Howell & Co., ade this statement: The liabilities are tween \$10,000,000 and \$15,000,000, most of thich is due to banks and bankers on ans. The assets are largely in excess of he liabilities, and nearly every loan is sell sourced by collateral. The firm elivered to me about \$1,000,000 of securities. This goes to show that the failure was not due to lack of securities, but to the extreme money stringency, which prevented the firm from completing its daily amount of borrowings.

THE DAY IN THE STHEET.

NEW YORK, Nov. 12.-When the gong New York, Nov. 12—When the gong was sounded for the opening of business this morning on the stock exchange, there was a yell and a rush, and pandemonium reigned on the floor. The galleries were crowedd to their utmost capacity, and by a class which only visit the street in times of great excitement. Rieldy attired ladies pushed forward for a stelly of the street. pushed forward for a sight of the struggling brokers, and the most casual observer would have seen that it was a time of unwouled exchanent. The market opened stronger than might have been expected, and there was evidently a hopeful

pechal, and there was evidently a hopeful view of the situation, dispite the fact that the early London navices were not of a very favorable character.

New Yours, Nov. 12, 10:50 a. m.—The stock market opened excited, but higher for the general list. Interest seemed to be centered in the Villards, and, on tremendous sales, the Northern Pacific and North American have advanced about two points over last night's closing figures.

of the first hour still continued, but a better tone was noticed over all the list.

New York, Nov. 12, 2:30 p. m.—The critical period of the day in the exchange, the delivery hour, passed without the announcement of any additional failure, and the financial horizon is decidedly clearer. Money is down to 6 per cent and plentiful.

THE POST'S REVIEW. NEW YORK, Nov. 12.—The Evening Post,

New York, Nov. 12.—The Evening Post, in its financial article, says:

"The immediate effect of the decision of the New York clearing house, to issue certificates to be used in the settlement of balances, was to allay the apprehensions of a bank panic, and, in that respect, had a beneficial effect, in helping the recovery from 1 to 3 per cent in the stock market during the first hour of business. But while it relieved these apprehensions, it did not decrease the demand for money, and on the stock exchange the rates were still up ½ to 1 per cent per day, besides the legal rate of 6 per cent per annum."

GOULD'S DENIAL. Mr. Gould was besieged by reporters in Ar. Gould was besieged by reporters in regard to the report in a morning paper on the Union Pacific deal. He was reluctant to say that he had made no purchases of Union Pacific, but he pronouncest the statements credited to him as "fiction." A Tribune reporter saw Mr. Gould in the afternoon and Mr. Gould denied that he had had an interview such as was that he had had an interview such as was

"I have nothing to say about my private ousiness transactions," Mr. Gould replied. "All that I ever said on this subject to any

body was that that stock I purchased I paid for." 'Will you exert an influence upon the Union Pacific management, or in any way, directly or indirectly, effect a change at the next election?

Mr. Gould smiled and hesitated before his reply. "I am acquainted with some of the largest stockholders in the company." he said. "I might have some influence, if he said. "I might have some influence, if I chose to exert it. There is great dissatis-faction over the conduct of many of the railroads. There is an uprising which ought to effect great reforms in the managements, for the roads have enough business to give them large profits, if they can obtain proper rates. In the southwest we have made progress toward perfecting we have made progress toward perfecting an arrangement which will establish sta-ble rates. There has been no conference today, that I know of, on the subject. The progress as made today is probably the re-sult of previous conferences. Stockholders are aroused and indignant over the result if the railroad elections were to take place now the results might be as surprising as

were the recent political elections.
Mr. Reckefeller, whose name nected with the interview, said: as I am concerned, there is nothing to the story. I have not seen Mr. Gould, and I have no interest in the Union Pacific. I will not speak for my brother, but I don't

with the deal."

Much was made in Wall street over what was said to be the evasion of the direct issue as to the Union Pacific control. when questions were asked of Mr. Gould A similar view was taken by the bulls of the Boston dispatch, which quoted President Charles Francis Adams as folows: 'I am absolutely ignorant of the alleged facts in Mr. Gould's alleged inter-tive, and greatly question whether Mr. fould made any such remarks. The Inion Pacific is not negotiating with any allroad, is at peace with all the world, is animalning rates on its traffic, and will outning to be operated with conservatism is traffic affairs." Union Parific directors were also quoted as denying the story, and houses in Wall strest with ex-cellent Roston connections ridicule the idea that Mr. Gould had obtained posses-

sion of the Union Pacific. THE POST ON THE STORY.

NEW YORK, Nov. 12.—The Evening Post New York, Nov. 12.—The evening Postsays:

"The stories about the Union Pacific passing into the control of Mr. Gould, and the report in a morning paper that he was to become the president in place of Mr. Adams, who was reported as about to retire, not only lacks confirmation, but we have the most positive and unquestionable proof that the whole story published in a morning paper, with all the details of an interview, was merely an invention. Nevertheless, we have also good reason for believing that a majority of the stockelieving that a majority of the stock-olders of the Union Pacific are dissatisfied with the present management, and that a move will sometime soon be made to break up the contract with the Northwestern, that the Union Pacific may be free to enter into a new combination. e to enter into a new combination, ich shall embrace all the roads west of icago, somewhat on the plan of Mr. Al-w Walker, or, if not that, upon a basis nilar to the so-called presidents' a ent, only so that it be made more bind-

Mr. Geo. C. Magoun, chairman of the Atchison board, replied to an inquiry as follows: "All southwestern lines have agreed to strengthen rates, and efforts are being made to join all lines west of Chicago and St. Louis, including southwestern, northwestern and all transcontinental lines, upon a like basis, namely, a small general committee, to control rates and to introduce the many economies expected to result from joint or common agents at competitive points. No interchange of directors has been suggested or contemplated."

A special from York says that Mr. Gould was asked this morning whether he was securing control of the Union Pacific. He replied that he was not giving away his own business. He further said: "I am not buying anything I can't pay for."

AUSTRALIAN SILVER.

Washington, Nov. 12.—In a report to the state department on Australian silver, Consul Griggin of Sydney says that the advance in the price of silver since the passage of the silver bill by the United States congress has already made a differ-ence in the annual value of that product ence in the annual value of that pro uct in New South Wales alone of more than \$1,946.600. Mr. Griggin says that in three days the price advanced from Sto 91 cents per ounce, and it is now quoted at \$1.10 per ounce. This advance, he says, is likely to have a marked influence upon the trade relations between Australia and the eastern countries, and it may result in the establishment of a direct may result in the establishment of a direct exchange between these colonies and China and Japan. The minister for mines of Victoria reports that none of the Victorian silver lodes yet discovered are regarded as of sufficient value to justify the investment of a large amount of capital in their development. The mines in the St. Anaud district, he says, have very bright prospects, but even these have not led to the opening up of a paying lode.

The Serpent went on the rocks during a storm on Monday night. A heavy nist prevailed at the time of the disaster owing to the violence of the storm, it was impossible to send assistance from the shore. Tremendous seas swept the deck of the doomed vessel, carrying away group after group of the unfortunate men on board. The news of the wreck was con-veyed to Corunna, a distance of sixty miles, over mountain roads. The Serpent's com-plement was 170 officers and men. The plement was 170 officers and men. After reading all the dispatches that had been received concerning the disaster, he went directly home without returning to the concert hall. He expressed the utmost sorrow at the fate that had overtaken so many brave men.

The newspaper offices at Plymouth were besieged by crowds of people anxious to hear further news of the disaster. Among those were the sobbing wives and daughters of many of the lost seamen. It is stated that many of the crew of the Serpent, before the vessel started on what proves to be her last voyage, expressed the fear that some misfortune would befall the ship. The admirality has telegraphed to the British consulat Coranna, asking for details of the disaster. The queen has sent a similar message to the duke of Edinburgh.

KOCH'S METHOD.

BERLIN, Nov. 12.—The following particulars are published of a case of lugars of the face in Frankfort, which Dr. Libbortz has been treating by Professor Koch's method. Six bours after the injection of the lymph, the temperature of the patient rose to over 104 degrees. Fahrenheit and the pulse to 129. At midnight the fever abated, the series awelled, the heads of the lugus ulcers became light yellow, and from them exuded a serous liquid. After thirteen hours scabs began to form. Today the patient was free from fever, and the ulcers were covered with scabs similar to those on a person recovering from an eraptive fever or from eczema. The doctor intends to inject more lymph, when the scabs fall. A medical correspondent of the Tagenblatt reports that in a case of lung disease the patient complained of pains in the knee, which were regarded as proof of the luck, which was followed by considerable swelling of the knee joints.

SAM WOOD'S DEFEAT.

HUGOTON, Kam., Nov. 9.—[Special.]—The greatest victory for the people of Stevens county is the defeat of Sam Wood for county attorney, by the Hon. Wm. O'Connor. Wood and his followers have travailed, day and night, for nearly a month to elect him, and after all, he was beaten by ten votes, in the county. Had O'Connor and his friends worked as hard, he would have carried the county by at least, seven. and his friends worked as hard, he would have carried the county by at least seventy-five majority. Mr. O'Connor was recently appointed county attorney by
Judge Botkin, to fill a vacancy caused by
the resignation of J. L. Pancoast, and has
filled the office so acceptably to his constituents that even his enemies admitted
his qualifications and fitness for the office.

Always conducting himself with credit his qualifications and fitness for the office. Always conducting himself with credit and discharging his duties without fear or favor, he has fairly won the praise of all. Had Wood been elected, as all your readers well know, endless trouble would have resulted. Now, on the other hand, these people can rest in peace and quietude for the next two years, or as long as our present county attorney fills this position. Harmony will be supreme, and the county will once more join the procession as one among the most prosperous counties of Kansas.
